

Weekly Assessment #4 (5B9 - C4)

Course: Data Analytics

Topic: Foundation of Excel

Assessment Type: Written Submission: **Typed**

Submission Deadline: October 25, 2025, 08:59 PM

Total Marks: 50

Tasks(A, and B): Use The CustomerData_Weekly Assessment #4, download it as .xlsx excel file or copy in a new google sheet and complete the following tasks:

Part A:

15

1. Total Sales per Order – Multiply Unit Price $\times$ Quantity.
2. Net Sales after Discount – Calculate Total Sales – (Total Sales $\times$ Discount %).
3. Flag Orders with Discount – Use IF to mark orders as “Yes” if Discount % $>$ 0, else “No”.
4. Combine Customer First and Last Name – Use CONCATENATE or TEXTJOIN.
5. Use an IF function combined with AND to flag orders as "Priority" if they are for the "Skin Care" category AND have a Quantity greater than 15. Otherwise, mark it as "Standard".
6. Highest and Lowest Net Sales – Use MAX and MIN.
7. Count of Large Orders – Use COUNTIF to count orders with Quantity $>$ 30.

Part B:

15

1. Total Net Sales per Category – Use SUMIF.
2. Average Discount per Salesperson – Use AVERAGEIF.
3. Number of Orders per Region – Use COUNTIF.

Part C:

15

	A	B	C	D
1	Customer Name	Email	Order_ID	Order Date
2	nahiyah ISLAM	nahiyah@example.com	ORD-101-2024	2024-01-01

3	Rahbat Rehnuma	rahbat@example.com	ORD-102-2024	2024-01-03
4	SAdique saBab	sadique@example.com	ORD-103-2024	2024-01-05

Export this table to a new tab in your existing Excel/google sheet, and complete the following task

Task:

1. Your manager wants all names in "Proper Case" (e.g., "Nahiyan Islam"). Write the Excel formula you would use in cell E2 to clean the name from cell A2.
2. (The "Order_ID" (Column C) contains a 3-digit "Item Code" in the middle. Write the Excel formula you would use in cell F2 to extract *only the 3-digit code* (e.g., "101") from the text in cell C2.
3. Your manager wants to know the "Review Date" for each order, which is exactly 6 months after the "Order Date" (Column D). Write the Excel formula you would use in cell G2 to calculate this future date.

Part D:

5

Briefly Explain Data Analysis Lifecycle with example.
